

**Request for Written Determination of Permit Exemption**

As provided for under the provisions of District Rule 202, certain equipment items do not require an air quality permit pursuant to District Rule 201. To obtain a written District determination that equipment intended to be installed/operated is exempt from Rule 201 permit requirements, please complete this form and return it to the above address. Please note that the District's right to charge this fee is found in Rule 210.II.B; the fee amount is specified in Schedule F (item 11), which is attached. Requests submitted with the required filing fee will be handled as quickly as possible. If your request for written determination is submitted without this fee, the District will return request to you without action.
